

HOW TRADIES CAN

INCREASE PROFITS BY 10-25%

WITHOUT SPENDING ANY MONEY

INCREASE YOUR PRICING

WHY?

Amazingly the #1 mistake made by most Aussie tradies is undercharging. Infact 27% to 54% of Australian business owners, are undercharging (depending on the source you use).

The cost of undercharging for your services is the difference between living with constant worry and stress about cash flow, and living a lifestyle that means never having to worry about money, and having the freedom to spend more time at the beach with family and friends or on that overseas trip you always wanted. It also means being able to hire a world-class team to deliver the services so you are working fewer hours.

Here are six real-and surprising-reasons from our business experience and academic research that show why you should raise your price today.

REASON #1: IT ALLOWS YOU TO OUTSOURCE TASKS AND SCALE YOUR BUSINESS MORE EASILY

With others delivering your service you can work ON your business rather than IN your business.

REASON #2: A SMALL INCREASE IN PRICE OFTEN LEADS TO A LARGER INCREASE IN PROFIT

Let us illustrate this through a simple hypothetical example.

Profit with Normal Price	
Revenue Per Sale	\$1.00
Cost Per Sale	\$0.90
Profit Per Sale	\$0.10

Profit with Double Price	
Revenue Per Sale	\$2.00
Cost Per Sale	\$0.90
Profit Per Sale	\$1.10

That's an 1100% increase in profit.

REASON #3: CHARGING 10-50% MORE DOESN'T REQUIRE A SIGNIFICANT CHANGE TO YOUR BUSINESS

In many cases a reasonable increase in price leads to little or no drop in clients. In some cases you may just need to target a better quality of client.

REASON #4: ATTRACTS THE RIGHT CLIENTS

Most clients cannot or do not determine value by logical evaluation. Many buyers in all markets use price as a guide of quality.

Ironically when you increase price you may attract a higher quality of client who want a higher quality service.

REASON #5: IT GIVES YOU A MARGIN FOR ERROR

When you have a razor thin margin and a project goes wrong then you lose money on each client. You work yourself to the bone to lose money.

REASON #6: PEOPLE WILL VALUE THE SERVICE AND BRAND MORE HIGHLY

Price-quality heuristics is when people equate value to price. In a study of 140 diners researchers discovered that people who paid \$8 for their meal enjoyed 10% more than those who paid \$4 for the same meal.

TAKE ACTION

When you don't make the profit you want, what do you do?

Most tradies take the hard way...

1. They take out an overdraft
2. They work harder, or
3. They hunt for more customers

In our experience, for 9 out of 10 businesses, these are all the wrong approaches because they don't solve the fundamental problem.

The core problem is often not charging enough!

The beautiful thing is that this also happens to be the easiest solution.
